

## GSFC Agrotech Limited

GSFC is one of the largest companies in fertilizers & chemicals sector in India. It has focused on developing solutions for sustainable agriculture by manufacturing & supplying quality agricultural inputs like Chemicals Fertilizers, Water Soluble Fertilizers and Biological products.

In line with its objective to cater better services to farming community, and to consolidate its position in Agro Business sector, GSFC has incorporated a subsidiary Company, GSFC Agrotech Limited (GATL) and was registered under Companies Act 1956 during April 2012. The activities of Biological products were transferred to GATL from July 2013 and achieved Turnover of Rs. 20 Crore during last year.

All the above products are sold under 'SARDAR' brand through GSFC's marketing network.

### **PRODUCT RANGE :**

- Plant Protein based Plant Growth Promoters
- Liquid Biofertilizers
- Tissue Culture plants
- Seeds

#### ➤ **Plant Protein based Plant Growth Promoters :**

GATL manufactures plant protein based granular & liquid plant growth promoters Sardar Amin Granules (SAG) & Sardar Amin Liquid (SAL), which contain amino acids and micronutrients.

Pilot Scale Production Capacity : SAG – 2000 MT & SAL 10000 Litres

#### ➤ **Sardar Liquid Biofertilizers (LBF) :**

GATL manufactures bacteria based Liquid Biofertilizers of two types of Nitrogen Fixers (Azotobacter & Azospirillum based) and one Phosphate Solubilizer (Bacillus based)

Pilot Scale Production Capacity : 1.75 lakh litres

#### ➤ **Plant Tissue Culture :**

GATL produces Tissue Culture raised plants of Banana (Robusta & Grand naine), Sugarcane (var. CO-86032), Stevia (var. Stevia rebaudiana) and Ornamental plant Dahelia

Tissue Culture raised plants of Pomegranate (var. Bhagwa), Pointed Guard-Parwal (var. Anawal) will be launched soon. Tissue Culture of Strawberry, Rose, Anthurium is under development.

Production Capacity : 30 lakh plants

➤ **Seeds :**

GATL procures and supply Certified & Research variety of seeds for different crops as under.

Crop	Variety
Bt. Cotton	BG-II
Groundnut (Kernel)	GG-10, GG-20, GG-2, TAG -24 & TG-37-A
Paddy	Gurjari
Soybean	JS-335 & JS 9560
Castor	GCH-7 & SCH-1
Wheat	Gw-496, Lok-1, and others
Cumin	G-4
Potato	Kufri Badshah, Kufri Lauvkar, Kufri Pukhraj, Lady Rosetta
Okra (Bhindi)	Hybrid variety

**FUTURE PLANNING :**

GATL desires to expand its business horizon and in this context future planning is as under.

- Set up of large scale production facilities for SAG & SAL with latest process & machinery.
- Expansion of Tissue Culture facilities for increase in production with DBT norms.
- Expansion of Seed business by venturing in seed production and seed processing.
- Set up of own marketing channel with expanded product basket with Water Soluble Fertilizers, Micro Mix, Speciality Fertilizers, Pesticides etc.
